

Probuild to design and construct hotel at Eastland

Following the opening of Eastland Shopping Centre's \$500 million expansion in May, Probuild is proud to be continuing its relationship with QIC Global Real Estate through the design and construction of a four-star 120-room hotel at the centre.

The new Sage Hotel will offer guests access to the expansive experiences available at Eastland, which incorporates all of Australia's major retailers, plus iconic international fashion, dining, and more than 350 speciality brands. Construction will commence in July 2016.

"We collaborated closely with QIC to deliver the expansion to Eastland, bringing our extensive national experience in the design and development of retail centres to maximise our client's return and enhance the customer experience," said Probuild Group Managing Director, Simon Gray.

"The transformation of Eastland was delivered in a live operating environment. It involved the development of bespoke approaches including a secondary lattice façade and special honeycomb aluminium fins to create a lightweight but heavy-duty façade to meet the design intent of the architectural concepts. We will be incorporating similar innovative design details within the hotel construction," said Mr Gray.

As one of Australia's largest and most successful construction companies, this important project adds to Probuild's growing portfolio of projects across Australia.
