

Issue Update: Crane Collapse at Wollli Creek

Further to Monday's alert, we provide the following update on the crane collapse at Wollli Creek.

Temporary crane installation is scheduled for today to facilitate the removal work. The crane is planned to be dismantled in stages from Friday.

We are continuing to work with emergency services, authorities, our engineers and engineers from Public Works and SafeWork to safely remove the crane as soon as possible.

We are working with Frasers Property to supply frequent updates to their [Discovery Point Facebook page](#) and to provide details for posting on the [Wollli Creek Community Group on Facebook](#). These are the best sources to use to stay up-to-date with work progress.
